Miscellaneous Office Letter/ Examiner' Comment

1. A review of the application for the purpose of setting up an Interference Proceeding reveals that the applicant is relying on subject matter of a prior US Patent No, 5,095,344 for support the recitations of the copied claims 68-78.

A preliminary action is as followed:

a). Pursuant to MPEP 608.01(p) a "mere reference to another application, patent, or publication is not an incorporation of anything into the application containing such reference for the purpose of the disclosure required by 35 U.S.C. 112, first paragraph. *In re de Seversky*, 474 F.2d 671, 177USPQ 144 (CCPA 1973). Particular attention should be directed to specific portions of the referenced document where the subject matter being incorporated may be found"(emphasis added). The specification fails to direct to a specific portions of the '344 patent being relied upon. Applicant is required to either amend the specification to include the subject matter being incorporated and claimed or to include reference to a specific portions of the '344 patent relied upon.

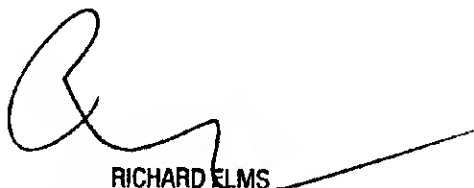

b) Also, 37 CFR 1.83(a) required that the drawings must show every feature of the invention specified in the claims. Therefore, the "memory comprising a plurality of word lines, a plurality of bit lines, and a plurality of memory cells, wherein each of said memory cells corresponds to a selected one of said plurality of word lines and a selected one of said plurality of bit lines" must be shown or the feature(s) canceled from the claim(s).

*A shortened statutory period for reply to this miscellaneous action is set to expire **ONE MONTH** from the mailing date of this action. **NO extension of this is available under 37 CFR 1.136(a).***
